

TRANSFORMERS

MIC, MILLIE, MINNIE & DEMI | MULTI-TAP, TOROIDAL 12V TRANSFORMERS

MIC 75W Transformer w/built-in timer

For demanding landscape lighting projects that require power and flexibility to accommodate multiple wire runs, Illumicare's low voltage transformers are the perfect fit.

Whether you need a short wire run to light a few clustered fixtures, or a longer wire run to power enough fixtures to illuminate a 200 foot driveway, our transformers offer voltage taps ranging from 12 to 15 volts. Illumicare's multiple voltage taps reduce the risk of installing wire runs that lower the light output, change the color temperature, shorten the lamp life, or even burn lamps too hot.
